EDUCATION FOR ALL

At Tamwood International Camps, we passionately believe that children everywhere deserve an education! We support the Universal Declaration of Human Rights, which states that all individuals have the right to an education and that education should be available and equally accessible to all.

Christo Rey is a community of approximately 4000 people who live day to day largely by scavenging in the Managua city garbage dump.

Education For All encompasses initiatives that improve education opportunities for children in this community in Nicaragua and focuses on three charitable enterprises:

PROVIDING UNIFORM FOR STUDENTS

Even though public education is free in Nicaragua, many children across the country are not able to attend school simply because their parents don't have the money to buy the uniform, shoes and school supplies that are mandatory for all students.

Tamwood is helping to prevent poverty from being a barrier to education by purchasing uniforms, backpacks, shoes and school supplies for children living in Christo Rey. With an education, children can learn to read, write and do basic math, enough to help them get a job when they graduate and help move their family out of poverty. study, have tutoring and be safe while their parents are at work.

TEACHERS TRAINING PROGRAMS IN LOCAL SCHOOLS

At Tamwood we believe that English expands your world! For this reason, experienced and highly-trained Tamwood teachers are volunteering to train local teachers in Nicaragua to help them to provide better education to their students.

With strong English skills, students have better employment prospects. Once a year, Tamwood flies two of its teachers to Nicaragua to train teachers in the after school care centres in the Christo Rey community.

HOW YOU CAN HELP TOO

Tamwood is using a percentage of its revenues to fund these three initiatives.

We can do more and impact more lives with your help. Tamwood receives over 3000 students a year in its various programs. Imagine the impact if each of our students donated just \$5 to this project. This is the power of crowd funding.

When you sign up for any of our programs you will have the opportunity to include a donation in your program fee. 100% of your donation will be used to help provide education for children in need.
